A black-and-white Halloween console

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Black paper, scissors, white vase already owned, removable fixings suited to wall, optional ribbon

01 PLAN

Clear a small console and measure its depth, wall area and nearby doors. Keep switches, vents and the usable walkway open. Choose a few contrasting pieces rather than covering every surface.

02 DETAILS

Cut three broad bat silhouettes from paper in different sizes. Arrange them on a table first, then use wall-compatible fixings according to their instructions. Avoid delicate shapes that tear during removal.

03 FINAL CHECK

Place a stable white vase on the console and check the display from normal standing height. Keep paper and ribbon away from lamps, flames and hot equipment. Artificial decor is a styling concept, not evidence of product durability.

MY MEASUREMENTS / QUANTITIES / CHANGES

Follow tool directions; supervise children around scissors and small parts.
