A small faux-greenery wreath

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Wreath form, faux greenery, ties, hanger, suitable fixings, and cutters if needed

01 PLAN

Measure the frame and lay greenery around it before attaching anything. Check the actual garland length and whether the maker permits trimming. Use only enough foliage to make the shape readable.

02 DETAILS

Secure short sections with suitable ties, covering any sharp ends and keeping the hanger accessible. A loose airy arrangement may use less material than a dense wreath; calculate from the actual sample rather than the illustration.

03 FINAL CHECK

Inspect the hanger and finished weight before displaying with appropriate fixings. Do not cover door hardware, vents or electrical equipment. Faux foliage is decorative and is not assumed flame-resistant or weatherproof.

MY MEASUREMENTS / QUANTITIES / CHANGES

Follow tool directions; supervise children around cutters and small parts.
