Autumn leaf-rubbing placemats

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Clean dry leaves, paper, crayons, table protector

01 PLAN

Choose clean, dry leaves with visible veins and no sharp thorns. Place one leaf under a sheet of paper on a protected flat surface. Children need age-appropriate supervision with natural materials.

02 DETAILS

Hold the sheet still and rub gently with the side of an unwrapped crayon. Try different pressure on scrap paper before filling the page. Move the leaf to build a loose border around an empty name area.

03 FINAL CHECK

Write a guest name in the middle and keep the paper dry. This is a decorative placemat, not a heat-resistant or food-contact barrier. Keep food on plates and avoid laminating unless you have suitable equipment and instructions.
