Faux-eucalyptus chair swags

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Short faux eucalyptus stems, ribbon, stable dining chair, suitable removable ties

01 PLAN

Choose a chair with a suitable back rail and inspect it for loose joints. Keep the seat, handholds and floor area clear. This is a decorative accent, not a support or handle.

02 DETAILS

Lay a few short stems along the outside rear rail and tie with a short ribbon. Secure loose ends without making long dangling loops. Use only stems whose maker permits bending or trimming.

03 FINAL CHECK

Sit, stand and move the chair before guests arrive. Remove anything that snags clothes, changes balance or reaches the floor. Keep foliage away from food, flames and heat, and do not attach decorations to high chairs.
