Folded Halloween treat bags

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Craft paper, ruler, scissors, adhesive, individually wrapped sweets

01 PLAN

Use plain paper to prototype a small bag around the wrapped treats you intend to give. Leave enough width for a side seam and enough height for a folded bottom and top. Decorative craft paper is not assumed food-safe.

02 DETAILS

Fold the side seam, glue and let it dry. Flatten and fold a broad base so the bag can stand. Add a simple paper face without cutting holes that let small contents fall out.

03 FINAL CHECK

Place only individually wrapped suitable treats inside and fold the top. Label allergens based on the wrappers and consider guest ages. This is decorative packaging, not a barrier certified for direct food contact.
