Glass container sets: count the bases

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Actual listings, set contents, container dimensions, storage needs worksheet

01 PLAN

Separate the number of containers from the number of pieces. A set advertised as 18 pieces may mean nine bases and nine lids; use the exact seller contents list instead of inferring from the headline.

02 DETAILS

List each base capacity and external dimensions, then check whether those sizes suit your meals and shelves. A large number of small bases may be less useful than fewer suitable ones. Compare selected variants, not different sets under one listing.

03 FINAL CHECK

Read care instructions separately for glass bases and lids. Only use in ovens, freezers or microwaves when explicitly permitted, and follow thermal-shock instructions. Check live prices on Amazon; this guide does not promise a fixed cost or universal compatibility.
