18 full-size treats: plan the guest count before buying

A full-size treat allocation worksheet; read the actual ingredient labels. Use the free worksheet with the steps below. Compare the optional supply only if you need it.

Materials: Wrapped treats; paper; pen; shallow tray

1. Check before starting

Write your expected visitors and chosen pieces per visitor, then add a separate reserve rather than guessing from bag weight.

2. Plan the arrangement

Keep wrappers and ingredient information intact. Compare the actual pack count with the total on your worksheet.

3. Finish and review

Put out a first batch and retain the reserve separately. Suitable treats already owned work too.

Check actual package counts and ingredient labels for allergens.

Plan around 18 full-size treats as an example; check the actual package count before buying.
