A beginner makeup-brush kit: label five brush jobs before gifting

General brush-purpose planning card; verify each brush against its maker's labels.

Download the matching printable below, then use the three-step plan. The featured product is optional.

Materials: BS-MALL 18-piece makeup brush set (optional featured product); Free matching FigureNook PDF; Paper and a pen; The actual item instructions and measurements

1. Start with the real item

Inventory the brushes already owned and identify the five jobs you actually need. The selected BS-MALL option is an 18-piece set, not a five-piece package.

2. Use the matching plan

Use the maker's labelled instructions to match actual brush shapes to jobs. Write those names on the reference card rather than assuming every brand uses identical labels.

3. Finish and check

Keep the card with the kit and follow its cleaning directions. No blending or performance test is implied by the illustration; additional brushes remain optional.

Check the exact selected option, maker directions, included pieces, current delivery and return terms before purchase. Other accessories shown may be separate.

Your matching printable

General brush-purpose planning card; verify each brush against its maker's labels.

Generic shape / job reference - verify the maker-labelled use of each actual brush.
