A black cardigan for a holiday dinner outfit

holiday dinner outfit checklist. No purchase or signup required.

Start with a simple base

Lay a cream blouse beside a dark midi skirt or trousers. Add a black cardigan as a separate layer rather than assuming it replaces a coat.

Check sitting and movement

Sit, reach forward and walk in the outfit. Check that buttons do not pull, sleeves feel comfortable and the hem does not catch on the chair.

Choose one finishing detail

Add one piece of jewelry or a small bag. Use the printable to list what you already own and one optional gap; keep comfort ahead of matching the illustration.
