A clay pumpkin frame corner for a fall photo

Photo-frame corner template • Free, no signup or purchase.

Plan the frame corner

Choose a small lightweight decorative pumpkin shape that fits outside the photo opening. Print the corner guide and check that the stand and backing remain accessible.

Shape the accent

Form a low-profile pumpkin from Crayola clay on a suitable support, following the label thickness guidance. Add shallow grooves with a blunt tool rather than deep cuts that weaken it.

Dry then attach

Dry fully before checking weight and fit. Use an adhesive suitable for the actual frame material, let it cure and check the frame remains stable. Do not attach a heavy clay piece to thin glass or a weak stand.

Important

Follow the actual clay, adhesive and finish labels for age suitability, thickness and drying. Adult supervision is required for tools and small parts. Air-dry clay is decorative, not edible, waterproof or food-safe by default. Use only battery LED lights where relevant, never flames.

Materials: Air-dry clay, washable surface, blunt shaping tools, a sturdy frame, and adhesive suitable for the frame material.

LAYOUT / SPACING PRACTICE

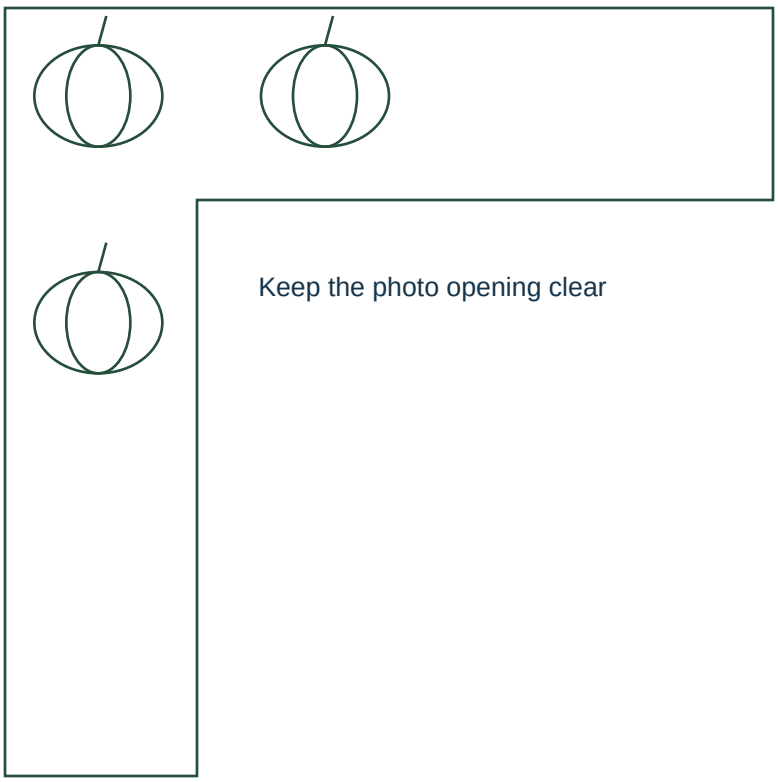
Practice outlines only. Adjust actual dimensions and thickness to the product label.

FIGURENOOK / PRINTABLE PATTERN

Photo-frame corner planning pattern

Print at actual size on US Letter. Check the 1-inch scale box before using.

1 inch / 25.4 mm



Example 4-inch outer legs and 1-inch band. Resize to fit your actual frame.

Use small light clay accents. Leave stand, backing and photo opening accessible.

The paper outline does not establish adhesive strength or frame load capacity.
