A cropped cardigan with a slip skirt and ankle boots

Proportion and hem-length outfit checklist. No purchase or signup required.

Start with the skirt

Lay a slip skirt flat and measure its waist-to-hem length. Set a cropped cardigan above it with an existing base layer so you can see where the cardigan ends.

Check the boot gap

Compare the skirt hem with your ankle boots while standing and sitting. Choose a combination that lets you walk and sit comfortably without pulling the skirt.

Finish with one repeated color

Repeat a cardigan or boot color in the bag or base layer. Check the actual retailer dimensions before ordering; the flat-lay is an outfit concept, not a fit guarantee.

YOUR PLAN

Cardigan length _____

Skirt length _____

Boot height _____

Walking check _____

Color repeat _____
