A eucalyptus bedroom dresser without surface clutter

Dresser styling checklist. No purchase or signup required.

Keep a useful clear area

Start with the things you use daily on the dresser. Set aside one small zone for the eucalyptus without blocking drawers or the mirror.

Balance one tall and one low item

Use the plant as the taller accent and pair it with one low tray or book. Avoid piling multiple ornaments around the pot.

Check stability

Open every drawer and gently test access to the daily items. Keep the pot back from the edge and faux foliage away from heat.

YOUR PLAN

Daily items _____

Clear area _____

Pot footprint _____

Low accent _____

Drawer test _____

Planning aid. Follow actual product labels and the safety notes in the full guide.
