A family clay pumpkin texture sampler

Four texture patterns and tool checklist. No purchase or signup required.

Make a small sample batch

Prepare four small flattened clay pumpkins of similar thickness. They are test pieces for texture rather than a finished decoration that must match perfectly.

Try one texture on each

Use a blunt skewer for ribs, a clean textured fabric for a light impression, a smooth tool for dots and a leaf vein for a gentle pattern. Do not press through the clay.

Compare after drying

Label the sample positions on the worksheet. Let them dry as directed and note which texture remains clear. Use your favorite on a later project.

YOUR PLAN

Sample _____

Tool _____

Pressure _____

Dry appearance _____

Preferred finish _____

Practice outlines (adapt size and thickness to the project):

Planning aid. Follow actual product labels and the safety notes in the full guide.
