A family fall-tree clay keepsake plaque

Planning worksheet with name table and practice tree outlines. No purchase or signup required.

Sketch the family tree

Draw a simple trunk with enough branches for the names you want to include. Roll clay into an even plaque as the maker directs, then trace a broad tree outline with a blunt tool rather than cutting fragile branches.

Add the names

Press small leaf-shaped impressions or initials into the clay with blunt tools. Leave enough space to read each name after drying and painting.

Dry flat and label

Follow the clay maker's drying directions and keep the plaque on a stable surface. Add a date and names with a suitable pen or paint after drying.

YOUR PLAN

Name	Initials	Leaf position (branch)

Date _____

Drying check _____

Display location _____

Practice outlines (adapt size and thickness to the project):
