Measure the clock

Measure the outside case and leave room to remove it for batteries or servicing. Never put decoration inside the clock or in the path of exposed hands.

Plan an outer ring

Lay Freyalife ivy around a paper circle larger than the case. Use separate wall fixings and do not hang foliage from the clock hands or mechanisms.

Check legibility

Keep numbers, controls and ventilation visible. Check the clock can be removed without pulling the ivy, and keep loose strands away from children, pets and heat.

Important

Artificial foliage is decorative. Use separate suitable supports and fixings where needed, rated for the actual surface and load. Keep small parts, cords and vines away from children and pets, and keep access, ventilation and heat clear. Never use an open flame near foliage.
