A green bedroom palette with one hanging accent

Color swatches and placement sheet. No purchase or signup required.

Choose three actual colors

Use the worksheet to record a wall or bedding color you already have, a neutral and the sage-green accent. Start with real fabric swatches where possible.

Place one hanging accent

Choose a suitable supported location for the eucalyptus. Keep it away from heaters, lamps and sleeping or walking areas.

Review before adding more

Look at the room by day and evening. Repeat one color in an existing textile only if the space needs it; a new full bedding set is not required.

YOUR PLAN

Existing color _____

Neutral _____

Sage accent _____

Location _____

Lighting check _____
