A greenery border above a bedroom art ledge

Length and attachment planning sheet. No purchase or signup required.

Check the ledge first

Confirm the ledge is securely installed and suitable for its existing artwork. Greenery is decorative and should not substitute for safe picture supports.

Plan a shallow border

Use a small number of strands along the ledge edge. Keep leaves off picture faces and away from lamps or vents.

Secure and inspect

Use fixings suited to the actual surface and keep cord-like vines out of reach of children and pets. Step back to check that the arrangement remains light and uncluttered.

YOUR PLAN
