A jar gift with a measured paper label band

A label-band planning worksheet for a decorative jar gift; not a canning recipe.

Materials: Clean dry jar; paper strip; pencil; ruler; scissors; suitable adhesive; printer optional.

1. Check before starting

Measure around the actual jar with a paper strip, mark a small overlap and check the usable label height.

2. Plan the arrangement

Make a plain-paper trial band; decorate it or print a final design if desired. Keep product or ingredient information visible.

3. Finish and review

Attach the band externally to a dry jar. The worksheet is decorative and does not establish suitability for canning or food storage.

Keep adhesive away from the rim and food-contact surfaces. Follow material directions.
