A long cardigan over a matching knit tank and trousers

Match the base pieces

Try a knit tank with trousers in a similar shade. Check the tank armholes, trouser rise and waistband before adding the cardigan.

Add the long layer

Put the long cardigan over the base and leave it open. Compare its texture with the base rather than trying to make three different fabrics look identical.

Check the set in use

Walk, sit and raise your arms. Make sure the layers do not twist or catch on jewelry. List which pieces you already own; the optional product link is only for the cardigan.

Important

Check the actual product size chart, material, care label and return terms. The optional link is only for the cardigan; other outfit pieces are separate suggestions. The illustration shows an outfit concept; verify fit using actual garment measurements.
