A pumpkin patch counting craft for kids

Printable numbered patch mat. No purchase or signup required.

Use the numbered circles

Print the numbered practice mat and place it beside the clay work area. Use age-appropriate quantities and supervise children throughout.

Shape one pumpkin per number

On a protected surface, roll small clay balls, flatten the bottoms and add shallow grooves with a blunt tool. Let them dry as the clay label directs before placing one on each circle; count aloud from one through five.

Keep play and food separate

Use only clay suitable for the child's age and follow its label. Clay and craft pieces are not edible. Small pieces pose a choking hazard: keep them away from children under three and anyone who puts objects in their mouth. Store finished pieces out of reach of younger children and pets.

YOUR PLAN

Number	Pumpkin count	Shape observation	Adult check	Date
1			☐	
2			☐	
3			☐	
4			☐	
5			☐
