A restrained pumpkin display beside a framed print

Three-object arrangement diagram. No purchase or signup required.

Choose the framed print first

Place a safely supported framed print on a stable console or shelf. Select a small area beside it rather than covering the whole surface.

Arrange a low cluster

Use a few mini pumpkins from the decor set and turn them so their bases sit flat. Keep the cluster below important features of the artwork.

Leave practical space

Preserve room for keys or other daily items. Use battery lights only if desired and keep all decor away from open flames and heat.

YOUR PLAN

Print width _____

Clear space _____

Pumpkin count _____

Height _____

Daily use _____
