A stack of three tiny clay pumpkins

Size guide and drying checklist. No purchase or signup required.

Plan three sizes

Use the printable to sketch a large, medium and small pumpkin. Keep each pumpkin low and broad; a narrow tower is easier to knock over.

Shape and texture

Make three separate rounded forms. Flatten contact points and add shallow rib lines with a blunt tool. Make a test stack while the clay is workable.

Dry and assemble

Dry the pieces according to the clay label before painting or final assembly. Use compatible adhesive only if required and allow it to cure. Display on a stable shelf away from children.

YOUR PLAN

Bottom width _____

Middle width _____

Top width _____

Contact points _____

Stability check _____

Practice outlines (adapt size and thickness to the project):

Drying and assembly checklist

- ☐ Pieces dried according to the clay label before finishing.
- ☐ Paint or finish dried according to its label, if used.
- ☐ Adhesive cured according to its label, if used; stack is stable.
