A woody fragrance gift: check the notes first

fragrance note comparison worksheet. No purchase or signup required.

Compare the whole note description

Start with the maker description for Saffron and Cedar, not the word woody alone. A woody fragrance can also include sweet or amber notes; this guide does not establish that the scent is unsweet.

Separate preferences from assumptions

Write down the recipient's existing favorite, notes they avoid and whether they want a body mist at all. Sampling an actual fragrance, where available, is more useful than judging an illustration.

Confirm the exact option

Check Saffron and Cedar, 3.4 fluid ounces, in the actual listing. Review seller, ingredients, directions, current total and returns.

YOUR PLAN

Known favorite _____

Notes wanted _____

Notes avoided _____

Sampling or comparison plan _____

Exact scent and size _____
