Air-dry clay star gift tags with a planned ribbon hole

Original star template, ribbon-hole guide and manufacturer-led drying checklist. Download the matching printable below, then use the three-step plan. The featured product is optional.

Materials: Crayola Air Dry Clay 5lbs, Modeling Clay Kit for Kids, Holiday Gift (optional featured product); Free matching FigureNook PDF; Paper and a pen; The actual item instructions and measurements

1. Start with the real item

Print the star outlines and trial the size on paper. Follow the chosen air-dry clay's preparation instructions and use tools suitable for the person doing the project.

2. Use the matching plan

Shape the star and make a ribbon hole large enough for the chosen ribbon before drying. Keep the hole away from thin points and follow the actual drying directions.

3. Finish and check

Thread the ribbon only after the piece is fully dry as directed. Use it as a decorative tag, not a food-contact item or a toy.

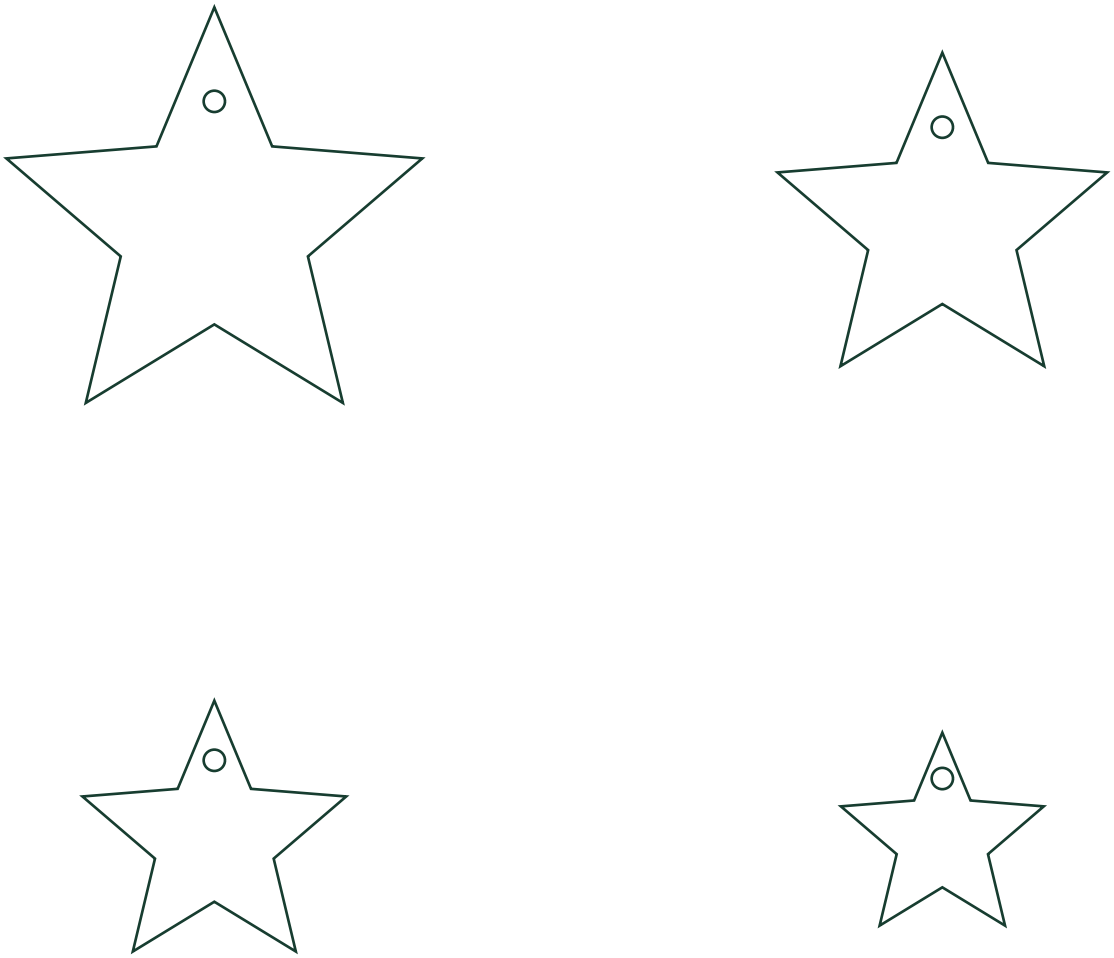
Check the exact selected option, maker directions, included pieces, current delivery and return terms before purchase. Other accessories shown may be separate.

Your matching printable

Original star template, ribbon-hole guide and manufacturer-led drying checklist

1 inch

Print at Actual size / 100%. Check the one-inch square. Solid outlines are cuts; dashed lines are folds. Trial on scrap paper before using good materials.



Cut one star as a paper guide. Mark the hanging hole before the clay dries. Hole circles show positions only; choose the actual hole size to suit your ribbon and clay instructions.
