An acorn-shaped clay ornament

Acorn silhouette template. No purchase or signup required.

Make the rounded acorn body

Shape a small rounded clay nut with a gently pointed bottom. Flatten the back slightly if it will hang against a surface. Keep the body compact rather than making a fragile long point.

Add the cap and hanging point

Shape a shallow cap above the nut and texture it with a blunt tool. Make a hanging hole with enough surrounding clay; a ribbon should not pull through a thin edge.

Dry and decorate

Follow the clay maker's drying directions. Paint or add simple leaf decoration only after the piece is dry, then thread a short ribbon. Treat this as decor, not a toy.

YOUR PLAN

Body size _____

Cap width _____

Hanging hole _____

Drying check _____

Ribbon _____

Practice outlines (adapt size and thickness to the project):

Safety: This is decoration, not a toy. Clay is not edible or food-safe by default. Use age-appropriate tools; adults handle sharp tools and keep small pieces away from young children and pets. Follow the clay and finish labels.
