An asymmetrical eucalyptus accent beside a bedroom mirror

Asymmetry layout card • Free, no signup or purchase.

Mark one side

Measure the mirror and choose a short accent along one side, leaving the reflection and any lights unobstructed.

Compare the drop

Hold the eucalyptus beside the frame without using the mirror glass as support. Choose a suitable separate fixing and keep the trailing end clear of the floor or furniture.

Secure sparingly

Attach only where the surface and fixing can support the actual load. Confirm the mirror remains safely mounted and accessible for cleaning; do not cover vents or electrical fittings.

Important

Artificial foliage is decorative. Use separate suitable supports and fixings where needed, rated for the actual surface and load. Keep small parts, cords and vines away from children and pets, and keep access, ventilation and heat clear. Never use an open flame near foliage.
