An oat-and-nut snack bar prep station

No-bake recipe and container planning worksheet (bring your own recipe). No purchase or signup required.

Choose a familiar recipe first

Use a no-bake oat-and-nut bar recipe you already trust, including its ingredient amounts and storage directions. This guide organizes the prep station and coordinates ingredient staging.

Set out the work zones

Put measured dry ingredients, the binding mixture and the lined shaping pan in separate zones. Keep allergen-containing ingredients clearly identified and away from other snacks.

Portion before packing

Follow the recipe's chilling and cutting directions, then choose containers that hold the finished bars without crushing them. Label ingredients and preparation date.

YOUR PLAN

Recipe _____

Ingredient	Measured quantity	Allergen

Packing size _____
