An oversized cardigan for a holiday movie night

Comfort and layering checklist. No purchase or signup required.

Start with your comfort requirements

Choose a base and bottom you can sit in for a long movie. Check whether you prefer a lighter knit or an extra blanket rather than assuming a thick cardigan will suit everyone.

Test the complete outfit

Sit, stretch and reach for a drink. Keep long sleeves away from food and open flames, and check for uncomfortable waistbands or seams.

Use what you already own

Build the outfit with existing lounge pieces first. Buy only if the actual fabric, care instructions and size match a specific gap.

YOUR PLAN

Base _____

Bottom _____

Sitting comfort _____

Sleeve check _____

Care _____

Planning aid. Follow actual product labels and the safety notes in the full guide.
