Body-mist gift or gift set? Count the included pieces

Compare a body mist and a possible gift set using the contents, price and terms of the actual listings.

Materials: Actual product listings; printable inclusion comparison; recipient's preferences; pen

1. List each included item

For each candidate, record the bottle volume, scent and number of included pieces from the exact selected listing. A photo of several products does not establish what ships. Check whether the selected Cheirosa 62 option is a single bottle or a set.

2. Compare like for like

Separate body mist, eau de parfum, cream and other formats rather than comparing only package size. Use candidate A and B to compare a mist and any set you choose. Check current seller, delivery and returns.

3. Choose the useful option

Use the recipient's preferences, actual contents and total cost to decide. Do not assume a bundle is better value without checking the quantities. FigureNook's generic illustration is not the seller's product photograph.

Read the exact label, ingredients and directions. FigureNook has not smelled or worn these products and makes no longevity, health or skin-suitability claims.

Your printable workspace

Item / option	Details / actual ingredients	Check / notes

Candidate A: format / volume / pieces

Candidate B: format / volume / pieces

Actual total / seller / returns

Check the exact selected product and listing directions.
