1. Start with the real item

Choose an updo you already know how to make and check the headband's fit without forcing it. Follow any accessory age and use labels.

2. Use the matching plan

Use the head-outline diagram to plan where the headband sits and where hair or pins could interfere. Try the actual accessory before finishing the style.

3. Finish and check

Make small adjustments for comfort and visibility. Do not treat a styled illustration as proof of fit or use extra fastenings that conflict with the accessory instructions.

Check the exact selected option, maker directions, included pieces, current delivery and return terms before purchase. Other accessories shown may be separate.
