Fall-leaf collars around LED votive holders

Votive sleeve sizing strip • Free, no signup or purchase.

Use LED only

Choose enclosed LED votives and holders with secure battery compartments. Never use real candles or any flame with artificial leaves or paper.

Size the sleeve

Wrap a cardstock strip around the outside of the holder with a small overlap. Arrange leaves from the winemana set on the outer sleeve, adjusting to their actual size.

Keep components accessible

Fasten the sleeve without covering switches, battery access or ventilation. Remove the sleeve for battery changes. Keep small leaves and button batteries inaccessible to children and pets.

Important

Artificial foliage is decorative. Use separate suitable supports and fixings where needed, rated for the actual surface and load. Keep small parts, cords and vines away from children and pets, and keep access, ventilation and heat clear. Never use an open flame near foliage.
