FIGURENOOK / PROJECT STEPS

Folded gratitude cards shaped like autumn leaves

Leaf-shaped gratitude cards that fold in half along the center vein. The printable has a maple leaf about 5.6 in wide and an oak leaf about 4.4 in wide, one per page, each with a prompt panel and reply lines inside.

What you need

• Printer and plain paper or cardstock; colored paper gives a colored outside
• Scissors
• Pen or pencil for prompts and replies
• Optional twine and a dot of glue for a small bow
• Optional card holders

Steps

1. Print and cut the leaves

Print pages 2 and 3 at 100% and check the 1-inch scale square; print one page for each card you need. Cut along the solid leaf outline, including the stem. Do not cut the dashed center vein or the writing lines.

2. Write the prompt

On the left half, write a short gratitude prompt, such as one thing that made this year better. Leave the reply lines on the right half blank for the guest.

3. Fold the card

Fold along the dashed center vein with the printed lines inside, so the outside of the leaf is plain paper. Glue a small twine bow near the stem if you like.

4. Set the table

Place one folded leaf beside each setting, away from food and candle flames. Plain printer paper works; a purchase is not required.

Tips

• Follow paper, printer and tool directions. Supervise scissors and keep paper and string away from food, heat, flames, children and pets.
• FigureNook suggestion: a prompt that asks for one specific moment, person or meal is usually easier to answer at the table than a broad question.
• Original editorial idea; a popular product is not a guarantee of suitability or results.

The printable pages

Page 2 of the PDF: a maple leaf card about 5.6 in wide with a dashed center fold, a prompt panel and reply lines. Page 3 has an oak leaf card about 4.4 in wide in the same layout.

Before you finish

- [ ] The scale square measured 1 inch
- [ ] Outline and stem cut; center vein left uncut
- [ ] Prompt written on the left half
- [ ] Folded with the lines inside
