# HydroJug 32 oz: check the handle, straw clearance and cup holder

Cup-holder and shelf-clearance measurements; avoid universal fit claims. Download the matching printable below, then use the three-step plan. The featured product is optional.

Materials: HydroJug Traveler insulated bottle (optional featured product); Free matching FigureNook PDF; Paper and a pen; The actual item instructions and measurements

### 1. Start with the real item

Measure the cup holder and note obstructions around it, including nearby controls. Do this while the vehicle is parked.

### 2. Use the matching plan

Read the exact 32 oz HydroJug dimensions and lid instructions. Check the handle path and the room needed above the straw rather than only the base diameter.

### 3. Finish and check

Complete the clearance card and compare the selected option before buying. Do not treat cup-holder-friendly wording as universal compatibility.

Check the exact selected option, maker directions, included pieces, current delivery and return terms before purchase. Other accessories shown may be separate.
