Leaf-imprint clay owls for a fall craft afternoon

Owl outline and imprint guide • Free, no signup or purchase.

Prepare the outline

Print the owl shape and compare it with the amount of Crayola clay available. Choose a blunt tool and a clean washable surface; supervise children according to the product age guidance.

Imprint the owl

Press a small flattened clay shape into the outline. Use a clean leaf to impress a wing texture, then remove the leaf. Shape eyes with a blunt tool without adding tiny detachable parts.

Dry flat

Dry according to the clay label on a suitable flat support. Turn only when firm enough. This is a decorative craft, not food or a toy; keep broken pieces away from young children and pets.

Important

Follow the actual clay, adhesive and finish labels for age suitability, thickness and drying. Adult supervision is required for tools and small parts. Air-dry clay is decorative, not edible, waterproof or food-safe by default. Use only battery LED lights where relevant, never flames.
