Mini artificial plants on a holiday console: leave room for the serving route

Console footprint and serving-clearance layout; plants are optional styling. Download the matching printable below, then use the three-step plan. The featured product is optional.

Materials: Der Rose 3 Pack Mini Fake Plants, Sage Green Artificial Plants for Shelves (optional featured product); Free matching FigureNook PDF; Paper and a pen; The actual item instructions and measurements

1. Start with the real item

Measure the console and identify where guests will place and lift the serving tray. Keep the serving route and any controls clear.

2. Use the matching plan

Trial the artificial plants on paper footprints first. The linked three-pack is optional; use existing decor if it fits the same plan.

3. Finish and check

Place plants only after checking stability and cleaning access. Keep decorative materials separate from food-contact surfaces and away from heat sources.

Check the exact selected option, maker directions, included pieces, current delivery and return terms before purchase. Other accessories shown may be separate.
