One bedroom greenery accent without an overhead planter

Placement and attachment planner • Free, no signup or purchase.

Add one short faux-ivy accent beside a mirror or along a shelf edge instead of hanging a planter overhead. Measure the route, work out how many vines it needs, choose fixings rated for your surface and check the room with doors and curtains moving. The free planner records the route, each fixing point and the clearance checks.

You need

- A measuring tape and a pencil
- Removable fixings suitable for your wall or shelf; check whether they are included or need to be bought separately
- A short length of faux ivy you own or are considering
- The free placement and attachment planner (PDF) printed on US Letter paper, and a pen

1 Choose a wall-side spot

Pick a short side-of-mirror or shelf-edge route at a height you can reach from the floor. Avoid overhead hanging planters in this plan. Keep the route clear of the pillow, window mechanisms and the lamp.

2 Measure the route and count vines

Measure the path the ivy will follow. Check the length of a single vine on the selected product or measure one you own, then divide the route length by that length and round up.

3 Choose and mark the fixings

Choose removable fixings rated for your surface and mark each point on the planner. The ivy must not carry or steady anything; a mirror needs its own secure fixing. Do not rely on fixings shown in an illustration.

4 Check the room in use

Open doors and curtains and confirm the foliage does not catch or fall onto the bed. Keep it away from heaters, lamps and flames, and remove loops that children or pets could reach.

Tips

- Store spare vines or use them elsewhere instead of crowding one accent.
- Follow the maker's instructions for handling, cleaning and ventilation.
- The optional product link is an affiliate link. Check the selected product, dimensions, materials, care instructions, included items and return terms on the current listing. Other pictured items are separate.
- The printable is free to download and print. No account, email or purchase is required.
