Owala FreeSip 24 oz: measure the bag pocket before choosing a bottle

Bottle-height and bag-pocket measurement card for the exact 24 oz option. Download the matching printable below, then use the three-step plan. The featured product is optional.

Materials: Owala FreeSip stainless steel water bottle (optional featured product); Free matching FigureNook PDF; Paper and a pen; The actual item instructions and measurements

1. Start with the real item

Measure the usable pocket opening, depth and closure space on the bag you will actually carry. Avoid relying on the outside bag dimensions.

2. Use the matching plan

Compare those measurements with the selected 24 oz Owala FreeSip listing and manufacturer dimensions. Leave room to remove the bottle comfortably.

3. Finish and check

Record the fit decision on the card and check the selected lid and care instructions before purchase. A drawing cannot establish real bag compatibility.

Check the exact selected option, maker directions, included pieces, current delivery and return terms before purchase. Other accessories shown may be separate.
