Pack the next-day snacks before guests arrive

Make-ahead packing sequence. No purchase or signup required.

Set aside tomorrow's portion first

Before the party begins, put an untouched serving of suitable snacks into a clean food-safe container. This is separate from food that will sit on the table.

Label and refrigerate

Write the contents and preparation date. Keep cold food refrigerated and dry crackers separately. Check that the container fits the lunch bag with a cold source.

Recheck the next day

Inspect the label and ingredient-specific storage guidance before packing. Do not assume food returned from a party display is suitable for another day.

YOUR PLAN

Snack _____

Untouched portion _____

Prep date _____

Storage _____

Next-day check _____

Planning aid. Follow actual product labels and the safety notes in the full guide.
