Paper-star garland with three printable sizes

A paper star garland from printable outlines in three sizes. The sheet has nine stars (two large, three medium and four small) with a hole mark in the body of each star; print several copies for a longer garland and choose your own spacing.

What you need

- Printer and suitable paper or cardstock
- Ruler and scissors
- String and suitable tape or hole punch
- Wall-safe hanging supports

Steps

1. Print and trial the stars
Print page 2 at 100% and check the 1-inch scale square. Cut one star of each size from plain paper first, then switch to cardstock your printer accepts. Print several copies of the page for a longer garland.

2. Plan the arrangement
Lay the stars along the intended string length on a table. Decide your own spacing; the printable provides star shapes, not a measured spacing guide.

3. Attach the string
Put a small piece of tape on the back of each star over the circle to reinforce the paper, then punch or pierce the hole and thread the string. Or skip the hole and tape the string across the back of the star.

4. Hang it
Hang the garland from wall-safe supports, keeping it light and securely supported. Keep string and paper away from children, pets, heat, flames and electrical fittings.

Tips

- Follow paper, printer and tool directions. Supervise scissors and keep paper and string away from food, heat, flames, children and pets.
- Mixing sizes in a repeating order, such as large, small, medium, small, keeps a long garland looking planned.
- Original editorial idea; a popular product is not a guarantee of suitability or results.

The printable pages

Page 2 of the PDF: nine star outlines in three sizes (two large, three medium and four small) with a hole mark in the body of each star, plus a 1-inch scale square.

Before you finish

- ☐ One star of each size trialled on plain paper
- ☐ Enough copies printed for the string length
- ☐ Holes reinforced with tape, or string taped on
- ☐ Garland clear of heat, flames and electrical fittings

Original AI editorial illustration depicting a design concept; review manufacturer specifications and product details for final suitability. Exact color, fit, performance and pictured accessories are not established by the image.

Paper star garland outlines

Print at 100% on US Letter and check the 1-inch square. Cut on the solid star outline.
Circle = optional hole for the string; tape the back first, or tape the string on instead.

1 inch

Sizes on this sheet:

Large: 2.4 in wide
Medium: 1.9 in wide
Small: 1.4 in wide

Nine stars: two large, three medium, four small. Print several copies for a longer garland.
Trial plain paper before cardstock. Paper templates stay away from heat, flames and electrical fittings.
