Press autumn leaves into a clay texture tile

Leaf identification and texture worksheet. No purchase or signup required.

Choose a clean fallen leaf

Use a dry leaf with visible veins and no sharp edges. Place it on an even clay slab and press gently so the veins leave an impression.

Lift without smearing

Peel the leaf away slowly, then trim the clay into a simple tile. Smooth edges and make any hanging hole before the clay dries.

Record the texture

Dry the tile as directed and use the worksheet to record the leaf shape and vein pattern. Wash hands after handling outdoor materials and clay.

YOUR PLAN

Leaf shape _____

Vein pattern _____

Pressing pressure _____

Date _____

Dry result _____

Practice outlines (adapt size and thickness to the project):
