Rosemary-imprint clay gift tags

A tag-size template and drying checklist. Use the free printable with the steps below; compare the optional supply only if you need it.

1. Roll and imprint

Roll air-dry clay to the maker's suitable thickness on a protected surface. Press a clean rosemary sprig lightly into it, lift it away and cut a tag outline using the paper template as a shape reference.

2. Add the hanging hole

Make a hole near the top while the clay is workable, leaving enough edge around it. Smooth rough edges and follow the clay label for complete drying.

3. Finish the gift tag

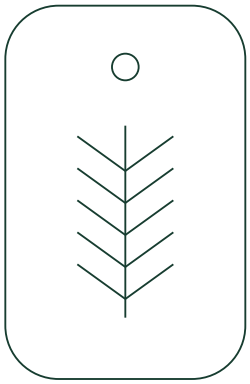
Paint or seal only with suitable products after drying, then thread ribbon through the hole. These are decorative tags, not food-contact items; keep the rosemary and craft supplies separate from food preparation.

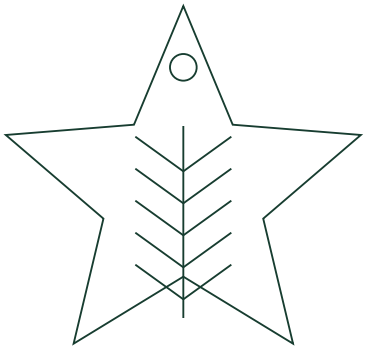
Follow material and tool instructions. Decorative clay, paper and wire are not food-safe or flame-safe by default; supervise tools and keep small parts away from children and pets.

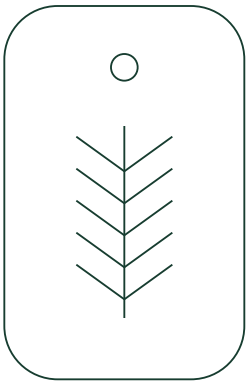
Your printable workspace

1 inch

Print at 100% / Actual size. Verify this square with a ruler. Solid lines: cut. Dashed lines: fold. Paper templates stay away from food, heat and flames.







Rosemary marks show placement; actual impressions vary.
