Small fragrance gifts: check the bottle size

fragrance format and bottle-size comparison sheet. No purchase or signup required.

Write down the real bottle size

The featured Bombshell option is a 2.5-fluid-ounce fine fragrance mini mist. It is not automatically the same concentration or size as a separately listed perfume.

Compare the recipient and format

Check whether they want a mist, perfume or another format. Do not infer scent strength or wear time from bottle size or a generic illustration.

Check the total before ordering

Read the actual selected listing, pack quantity, delivery and return terms. Use the worksheet to compare size and format rather than relying on a product photo alone.

YOUR PLAN

Recipient preference _____

Format _____

Fluid ounces _____

Pack quantity _____

Delivery and returns _____
