Style a bedroom bookcase with greenery and breathing room

Shelf spacing template. No purchase or signup required.

Clear one shelf at a time

Remove loose objects and check the shelf's stability and load rating. Keep books and other heavy items supported, rather than using greenery to hide an unsafe stack.

Leave open space

Place books first, then use one trailing strand at an edge. Preserve easy access to books and keep leaves clear of lamps, heaters and plugs.

Make cleaning possible

Use the printable to record which pieces you will lift out for dusting. Reduce the number of strands if they catch on books or collect clutter.

YOUR PLAN

Shelf width _____

Book group _____

Green accent _____

Open space _____

Cleaning _____

Planning aid. Follow actual product labels and the safety notes in the full guide.
