Style a grey cropped cardigan with a burgundy base

Three-color outfit planner. No purchase or signup required.

Choose the burgundy base

Use a burgundy top or dress you already own. Lay the grey cardigan over it and keep the next large color neutral so the palette is easy to repeat.

Balance the lengths

Compare the cardigan hem with your waistline and bottom layer. Try it open and partly buttoned without stretching the buttons.

Check in daylight

Look at the actual fabrics together in natural light. Screen colors differ from garments, so compare retailer photos and your existing wardrobe before buying.

YOUR PLAN

Grey piece _____

Burgundy piece _____

Neutral _____

Hem check _____

Shoes _____
