Three geometric pumpkin faces without carving

Free face-position templates; verify actual marker colours before illustration. Use the free worksheet with the steps below. Compare the optional supply only if you need it.

Materials: Pumpkins; suitable paint markers; paper templates

1. Check before starting

Choose a broad face made from circles, triangles or rectangles. Trial the arrangement on a paper oval before painting.

2. Plan the arrangement

Lightly plan the features on the pumpkin and apply a small section at a time using material directions.

3. Finish and review

Allow the paint to dry before display. The printed face plans are decorative references, not exact fits for every pumpkin.

Follow product and material directions.
