Two-tone clay heart ornaments without a cookie-cutter set

A paper heart outline and joining practice sheet. Use the free printable with the steps below. Compare the optional supply only if you need it.

Materials: Decorative air-hardening clay; heart templates; clay-safe color or paint; hole tool; twine

1. Use a simple outline

Print the heart templates and make a plain-paper trial. Shape an even slab and cut a broad heart. Avoid very thin points or a deep narrow notch that would make the piece fragile.

2. Join or paint the two colors

If joining two clay colors, use the maker's compatible materials and joining method. Painting a fully dried heart in two areas is an alternative. Try the finish on a spare piece before applying it to the whole gift set.

3. Dry before threading

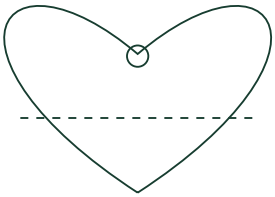
Make a supported hanging hole before drying and follow the clay instructions. Let paint or finish cure completely, then add the twine. The heart is indoor decor; no waterproof or food-safe finish is promised.

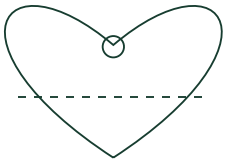
Follow material and tool instructions. Decorative clay, paper and wire are not food-safe or flame-safe by default; supervise tools and keep small parts away from children and pets.

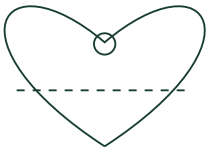
Your printable workspace

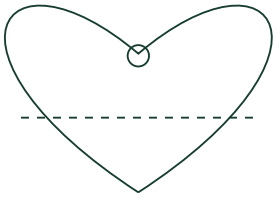
1 inch

Print at 100% / Actual size and verify this square. Solid outlines: cut. Dashed lines: fold. Trial on scrap paper. Clay outlines are shape references. Keep paper away from food, heat and flames.









Inner line suggests two-color placement, not a cut or fold.
