Vanilla fragrance notes: a beginner gift vocabulary

Printable scent-description card. No purchase or signup required.

Separate notes from format

Write whether the product is a body mist, eau de parfum or another format. The eos option linked here is a 6 fl oz body mist, not a perfume concentrate.

Learn the maker's vocabulary

Vanilla, caramel and musk describe a direction, not guaranteed intensity or duration. Record the manufacturer's wording and the recipient's existing preferences separately.

Ask before surprising someone

Confirm they use fragrance and like the proposed note family. If preferences are unknown, keep the worksheet as a question list rather than treating a bestseller rank as a personal recommendation.

YOUR PLAN

Format _____

Maker notes _____

Liked scents _____

Avoided scents _____

Question _____
