Reading corner: slippers and a throw

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

Existing chair, washable throw, slippers suited to wearer, measuring tape

01 PLAN

Measure the chair seat and back before buying a throw. Choose a size that covers the intended area without trailing across a walking route. Keep the chair stable and the floor clear.

02 DETAILS

Compare the actual fiber content, care instructions and dimensions of a throw. For slippers, check the wearer's size, closure and sole suitability for the indoor surface; a cozy image is not evidence of slip resistance.

03 FINAL CHECK

Place the folded throw on the arm or back where it cannot snag moving parts. Keep slippers in an accessible spot outside the walkway. This is a styling and buying checklist, a worksheet for comparing dimensions and preferences.
