Will your cardigan fit under a coat?

Read the full guide before you begin. Use this worksheet to record your own measurements, quantities and choices.

SUPPLIES TO CHECK

A cardigan that fits, intended outer coat, flexible measuring tape, notepad

01 PLAN

Put on your intended base layer and cardigan, then your coat. Close the coat and bend both elbows. Check that the upper arms and shoulder seams do not bind. Measurements alone do not prove comfort.

02 DETAILS

Measure a comfortable cardigan laid flat from underarm to underarm, across the upper sleeve and along the sleeve. Compare these garment measurements with the seller size chart; body and garment measurements are different.

03 FINAL CHECK

Try reaching forward and raising your arms before choosing a size. Use a finer layer if the coat compresses the knit. Check the actual selected color, dimensions and return terms before ordering.
